

WAREHOUSE

SAFETY SIGNS & PRODUCTS

Introduction

A warehouse can be a hazardous working environment, with a potentially lethal blend of moving plant, heavy items and busy people under time pressure, all sharing the same space.

Having clearly visible and understandable health and safety signs can help warn and advise staff/visitors of possible hazards and advise of their obligations to safety. By using ISO 7010 compliant signs it ensures everyone understands the meaning of the sign – even when English is not their first language – the meaning of an ISO 7010 symbol should be recognisable by all, which is especially important during periods of short-term seasonal employment.

We've put together a range of signs and products that will help to improve warehouse safety. This is just a small selection of what is available, so if you can't find the sign you need or if you want bespoke signage then please get in touch.

Table of Contents

Introduction & Contents	1	Warning	14-15	Floor Graphics	29-30
		Mandatory	16-17	Security / CCTV	31-32
Equipment Inspection Systems	2-4	Multi-Message	18-20	Site Safety Signs	33-36
Fire Safety & Evacuation	5-8	General Amenities	21	Custom Signage	37-40
Prohibition	9-13	Warehouse Safety Products	22-28		

SIGN CODES	MATERIAL CODES	LANDSCAPE SIZES	PORTRAIT SIZES
<p>All product codes start with a single number relating to the choice of material that the sign is available in.</p> <p>All products then show a 4-digit code – unique to that particular sign design.</p> <p>A list of size options is shown for each choice of material, represented by individual letters. Each letter identifies available size options which can be found in the table to the right.</p>	<p>1 Rigid plastic</p> <p>2 Self adhesive vinyl</p> <p>3 Photoluminescent rigid plastic</p> <p>4 Photoluminescent self adhesive</p> <p>5 Miscellaneous</p> <p>6 Aluminium</p> <p>7 Polycarbonate</p> <p>*No size code required</p>	<p>A 100 x 75mm L 450 x 150mm</p> <p>B 80 x 80mm M 600 x 200mm</p> <p>C 150 x 150mm N 400 x 400mm</p> <p>D 150 x 100mm P 600 x 400mm</p> <p>E 200 x 150mm Q 600 x 450mm</p> <p>F 200 x 200mm U 100 x 100mm</p> <p>G 300 x 100mm V 300 x 150mm</p> <p>H 300 x 250mm W 900 x 600mm</p> <p>J 400 x 200mm X 200 x 100mm</p> <p>K 400 x 300mm</p>	<p>A 75 x 100mm</p> <p>D 100 x 150mm</p> <p>E 150 x 200mm</p> <p>G 100 x 300mm</p> <p>H 250 x 300mm</p> <p>K 300 x 400mm</p> <p>L 150 x 450mm</p> <p>P 400 x 600mm</p> <p>S 75 x 200mm</p> <p>V 150 x 300mm</p>

If you can't find the material, size or message you require or for details on how to order bespoke signs please contact us for a quote.

Equipment Management

A tagging and checklist system designed to help companies improve safety, reduce maintenance costs and comply with legislation by spotting potential faults early, before they develop into a more costly or serious defect. This simple but highly effective Safe Equipment Management System allows pre-use checks to be completed on workplace equipment and the findings clearly displayed for all to see, removing any doubt as to when the last check was completed. A perfect addition to any safety or maintenance management programme, in accordance with PUWER, LOLER and WAHR, helping ensure workplace equipment is always Good to Go!

Status Tag

Attach to workplace equipment (usually at point of entry) and advise employees when the equipment is "Good to Go" following a pre-use inspection. If a fault is found then the tag can display a "Do not use" message to quarantine the equipment until further notice.

- Manufactured from tough, durable, highly visible polypropylene
- Weather resistant and UV stable
- Channelled base allows flush fitting onto scaffold tubes
- Fixing options include cable ties, screws, rivets or adhesive
- Displays "Do not use" message until completed checklist is inserted
- Displays date of audit when used in conjunction with check book

Polypropylene
H120 x W52 x D13mm
5 1301

Check Books

Each Check Book includes comprehensive checklists to help companies meet their obligations to relevant legislation and industry guidelines. Duplicate copies of each completed checklist are created and retained within the check book, providing invaluable evidence of your Equipment Management System in the event of an accident.

- 25 individual checklists in each book
- Includes useful guidance notes for inspection procedures
- Carbon copies are retained within the check book
- Each checklist has a unique sequential number to aid audit and management documentation
- An integral addition to your maintenance and H&S programmes
- Sign & date, insert into tag and inform of equipments status

Custom solutions available. Please let us know if you have a specific requirement for equipment we don't currently offer.

Wallet & Pen

This useful Wallet & Pen will protect the check book from general wear and tear whilst in use and it provides a solid writing surface while you are on the move.

Includes guidance notes on how to use the system.

PVC Coated
250 x 235 x 3mm (Flat)
5 1308

Tamper Seals

An optional extra which can provide a visual indicator that the checklist in place is verified. If the seal is missing, the equipment should not be used and a new check should be completed.

A useful add on when quarantining faulty equipment.

Polypropylene
Supplied in a box of 100
5 1307

Weather Resistant Folder

These industrial strength pockets are perfect for storing Check Books and equipment manuals. With a press seal fastening to keep those important inspection checklists clean and dry.

Self adhesive strip for permanent fixings.

Clear PVC
Can hold A4 documents
5 8109

Dispenser

Suitable for storing check books in a central location for quick access.

- Holds up to 10 Check Books
- Can be wall mounted - Pre-drilled

Clear Acrylic
H165 x W117 x D76mm
5 8099

Equipment Management

Annual Kits

Regular equipment inspections can help identify potential faults before they develop into costly and dangerous defects. The frequency of inspections can be defined by a wide range of variants. On occasion, legislation will set out the specific time period in which checks must be completed or alternatively a risk assessment may define how often checks should be done. Using the Good to Go Safety system will help you improve safety, reduce maintenance costs and enable you to comply with legislation.

Annual Weekly Kit

The Weekly Kit provides you with everything required to carry out 50 inspections - Ideal for one year of weekly inspections.

1 x Status Tag

Attach to the equipment and show its status.

2 x Check Books

(50 inspections) allowing one to be completed each week and the findings displayed inside the status tag.

100 x Tamper Evident Seals

Deter and identify unauthorised access to the status tag.

1 x Wallet

Store the current book and provide a suitable writing surface when completing checklists.

1 x Pen

Store inside the Wallet to ensure there is always a way to record findings.

Annual Daily Kit

The Daily Kit provides you with everything required to carry out one daily equipment inspection for a full year (Based on a 5-day working week)

2 x Status Tags

Attach to the equipment and show its status.

11 x Check Books

(275 inspections) allowing one to be completed each day and the findings displayed inside the status tag.

300 x Tamper Evident Seals

Deter and identify unauthorised access to the status tag.

1 x Wallet

Store the current book and provide a suitable writing surface when completing checklists.

1 x Pen

Store inside the Wallet to ensure there is always a way to record findings.

Information Board

A wall mounted information station provides details of the Good to Go Safety inspection process whilst offering easy access to check books in a central location. Ideal for warehouses, factories or busy workplaces.

Add your company logo for no additional charge

Includes 5 Check Book Dispensers

Each dispenser holds up to 10 check books (not included).

Dispensers are supplied with high bond adhesive backing for easy application to board.

The board is easily drilled for wall mounting

Allows easy visual awareness when replacement books need to be ordered

To add your company logo, please supply us with a high resolution file when placing your order.

See page 125 for additional dispensers

Fire Extinguisher Signs

Fire Extinguisher Signs

The Regulatory Reform (Fire Safety) Order 2005 places responsibility of fire safety on employers to ensure that a fire risk assessment has been conducted to establish fire risks and that appropriate actions are taken to reduce them. Failure to comply could lead to severe legal penalties. Under the Regulatory Reform (Fire Safety) Order 2005, any non-automatic fire fighting equipment should be positioned and signed in accordance with BS EN ISO 7010:2012 to ensure maximum levels of comprehension. By positioning an appropriate fire equipment sign at a height between 1.7m - 2m from the floor it helps to locate and identify essential fire equipment in the event of its viewing being obscured by furnishings in the room.

Directional Emergency Escape Signs

Emergency escape signs are provided to guide you from wherever you are in a building, via a place of relative safety (the escape route) to the place of ultimate safety (the assembly area). It must not be assumed that everyone will know all safe routes through the building. Similarly, it must not be assumed that, once outside the building via a final exit, people will know how to get to the assembly area, so signs directing to the assembly area may also be required.

Prohibition

Vehicle Stickers

Smoke free vehicles must display at least one legible no smoking sign in each vehicle. Throughout the UK drivers are also banned from smoking in their cars if they are carrying passengers under the age of 18 years.

England and Northern Ireland

The Smoke-free (Signs) Regulations 2012. The regulations state that at least one legible no smoking sign is displayed in smoke free premises.

The Smoking (Northern Ireland) Order means you must display signs at each public entrance to any work or public place. No smoking signs should also be displayed in public and business vehicles. Bedrooms in hotels, care homes and prisons are exempt.

Floor Marking Tapes • Self Adhesive • 50mm Wide • 33m Length

Ideal for use in factories, warehouses, hospitals and hotels. Sub surface printed and over laminated in hard wearing, anti-slip polycarbonate film. We advise the use of primer, edge sealer and floor cleaning fluids for improved adhesion.

Personal Protection Signs

Employers are responsible for the provision and use of personal protective equipment (PPE) at work. PPE is equipment that will protect the user against health or safety risks at work. It can include items such as safety helmets, gloves, eye protection, safety footwear, high-visibility clothing, safety harnesses and respiratory protective equipment (RPE). PPE must be properly looked after and stored when not in use. Employees must make proper use of PPE and report if it has been lost, destroyed or if any fault is found. Safety signs and posters can prove a useful reminder that PPE should be worn during specific tasks or in specific locations. Take note of any changes in equipment, materials or methods – you may need to update your signs accordingly.

Easi-Fix Projecting Signs

Identify important locations from several view points with our projecting signs. The fixings are concealed for a neat finish and they come supplied ready to install with a drilling guide.

Rigid Plastic
Face: 150 x 200mm

Spill Station Signs

Regulation 13 of the Control Of Substances Hazardous to Health Regulations 2002 places a duty on employers to provide for appropriate emergency response including remedial action. Legislation requires organisations to “establish and maintain procedures to identify potential for and respond to accidents and emergency situations, and for preventing and mitigating the environmental impact that may be associated with them” (Clause 4.4.7). These signs inform how to effectively respond to oil, chemical or general fluid spill on site, land and water, inline with EU guidelines and legislation to assist with ISO 14001 compliance.

1 6000 W

Lightweight Free-Standing Signs

Perfect for identifying areas contaminated by a spill. Use with a 10m chain post kit on for an effective containment solution.

Impact Protection

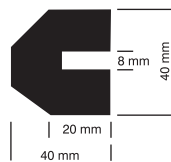

The impact protection system cushions and warns of protruding corners, edges, vulnerable pipes and protects many other areas such as walls, kerbs, trolley parks, vehicles, plant and machinery and is ideal for racking and shelving. Supplied in standard lengths of 1000mm and manufactured from high-grade flexible age resistant polyurethane foam with self adhesive or push on profiles. Protects staff from injury and property from damage. Can be easily cut to the required length.

Rack Protector

Cost effective protective bumper, minimises the impact of forklift truck collisions. Supplied with two velcro straps (700mm) for quick and easy fixing to most uprights

- Yellow polyethylene - no rusting or denting
- Waterproof and chemical resistant
- Ability to reform itself after an impact
- Slim fit provides minimal aisle intrusion
- Manufactured to comply with BS6399-1: 1996

Height: 500mm

Clips to any frame width between 75-90mm

5 9235

Column Protector

Impact protection for columns and girders. Air pressure release to cushion the blow. Easy to assemble with no drilling or bolting down required. Supplied with velcro straps for securing around the column. Manufactured with a highly flexible and strong polyethylene. Suitable for warehouses, mezzanine floors and carparks.

Assembles in Seconds: No fixings required, fits over baseplate.

High Visibility: Rotationally moulded, UV Stabilised.

Made from linear low density polyethylene (LLPE)

Wall Thickness: 6.4mm (1/4)

Dimensions: 1100mm(H) x 600mm(W) x 600mm(D)

Fits Column

150-200mm wide

250-300mm wide

Warehouse Safety

Health and Safety Law Poster

The HSE released a new design of the statutory Health & Safety Law Poster in April 2009. The old version should no longer be used or displayed.

Includes a unique, serial numbered hologram to ensure its authenticity.

Easy to read and understand, providing benefits from increased awareness to both workers and employers.

Unlike the previous poster, there is no need to provide the name and address of the enforcing authority for the premises.

Reduces the administrative costs for employers, who no longer need to include and update additional information.

Semi Rigid (275Micron)

Warehouse Safety

Chain Posts

Plastic posts and chains offer a lightweight, flexible option for cordoning off areas quickly and easily, making them perfect for temporary hazards such as spillages or for preventing access to areas during cleaning or hazardous work activities. The posts and bases are easily detached for ease of storage.

Universal Chain Post & Base

An ideal, low cost solution for cordoning off areas both internally and temporarily in outdoor environments. Quickly and easily deployed.

We recommend a maximum of two metres of plastic chain between posts.

- Corrosion proof plastic construction
- Four integrated chain eyes in cap allows easy directional changes
- Highly visible post colours

Plastic Base: Concrete infill of 2.9kg 300 x 300 x 300mm
Post: H 870mm x 40mm Diameter

Colour	Code
 Red & White	5 9039
 Black & Yellow	5 9040

10metre Chain Post Kit

This 10 metre post and chain kit provides exceptional value for money. Allowing areas to be cordoned off quickly and easily.

We recommend a maximum of two metres of plastic chain between posts.

Includes:

6 x Posts and Bases
 10 metres of Chain
 10 x Hooks and Links

Total Weight: 20kg

Colour	Code
 Red & White	5 9036
 Black & Yellow	5 9037

Plastic Chains

10 metres of polyethylene chain with 6mm links

Can be easily cut to length if required.

Heavy Duty Chain Post & Base

A highly stable and extremely effective heavy duty chain post system consisting of a reflective, polypropylene post and recycled PVC base. Suitable for both internal and external use for either temporary or permanent applications.

100mm diameter post includes a retro-reflective red and white finish, providing excellent visibility when light is shone at it. The chain eye on top of the post rotates, guiding the chain to any angle required. Simply thread the chain through the eye and secure to the end posts with a connector link (sold separately). The post twists and locks into the base and easily dismantles for storage.

We recommend a maximum of 2.5 metres of plastic chain between posts.

Post Base: Recycled PVC base with carry handles 70mm high, 570mm diameter 8.5kg 5 8928	Post: Moulded polypropylene with reflective finish 1000mm height with 100mm diameter Includes rotating chain eye 2.7kg

Circular Floor Graphics • 400 x 400mm

Ideal for use in factories, warehouses, hospitals and hotels. Sub surface printed and over laminated in hard wearing anti-slip polycarbonate film. We recommend the use of primer, edge sealer and floor cleaning fluids for improved adhesion.

Floor Preparation

A clean surface is vital to the performance and longevity of your floor graphics and tapes. Thorough cleaning and priming of all surfaces, together with edge-sealing to prevent the ingress of moisture and other contaminants, helping to increase the service life of your products.

Edge Sealer 140ml 5 9699

Floor Cleaning Fluid - 1 Litre 5 8827

Floor Primer 1 Litre 5 9698

Anti-Slip Mats • 610 x 150mm With aggressive pressure sensitive adhesive for bonding to most floor surfaces.

Caution 5 9634 | Watch your Step 5 9635

Security Signs

If your business uses CCTV, you must inform people that they could be recorded. This is usually done by displaying signs, which must be clearly visible and readable. In order to comply with the Data Protection Act 1998, signs must state the purpose of scheme, and give details of the Data Protection Act Controller (either the person's name or position, or preferably the company's name) together with a contact telephone number or address, if it is not obvious.

Window Labels

• 75 x 100mm • Self Adhesive Face

Window labels have adhesive on the face, allowing them to be applied to the inside of the window and seen from the outside.

Visitor Management

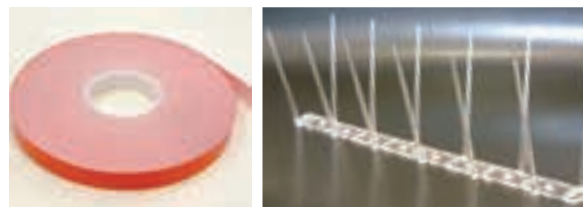

Ideal for recording and identifying visitors in your premises. Perforated top copy tears off for insertion into badge wallet with a duplicate copy retained for a permanent visitor record. Starter kit includes a synthetic leather padded folder, visitor book with 300 badge inserts and 10 badge wallets with clips.

Description	Code
Visitor book starter kit	5 6071
Visitor book refill (300 badge inserts)	5 6072
Badge wallets with clips (pack of 10)	5 6073

Bird Deterrent Spikes

Bird deterrent spikes are simple but effective, easy to install, preventing birds from perching and nesting. Manufactured from transparent U-V stabilised polycarbonate to blend with any background. Spikes are rounded and so will not harm the birds and are not dangerous to maintenance personnel. Spikes come in 333mm lengths and can be fitted by the use of screws or by the use of all weather double sided tape, this is most suitable for clean smooth surfaces.

Notice Boards

Notice Boards

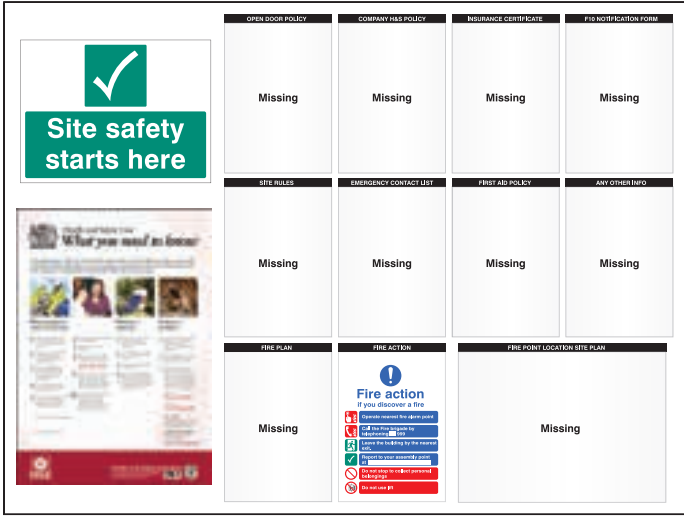

These large internal notice boards are manufactured from 5mm foam PVC and include clear document wallets to place relevant documentation inside. A Health & Safety Law Poster is also included on each board. Helps to ensure all employees and visitors are fully aware of site rules and procedures at all times. If documents are removed from the wallet a "Missing" message will be displayed. These boards can be easily drilled for wall mounting.

5mm Foam PVC
1430 x 1075mm
5 8178

Document holders for:

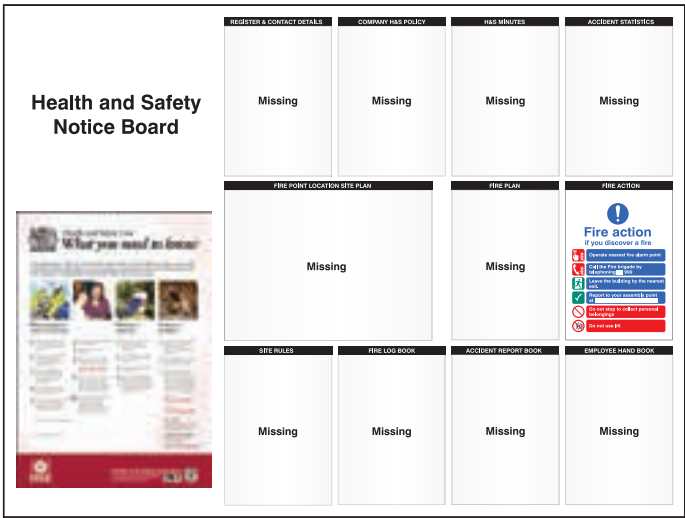

- Register & Contact Details
- Company H&S Policy
- Site Rules
- Insurance Certificate
- Hot Works Permit
- Electrical Works Permit
- Confined Spaces Permit
- Working at Height Permit
- Hazardous Substances Permit
- Excavation Permit
- Asbestos Permit
- Other Permits

5mm Foam PVC
1430 x 1075mm
5 8021

Document holders for:

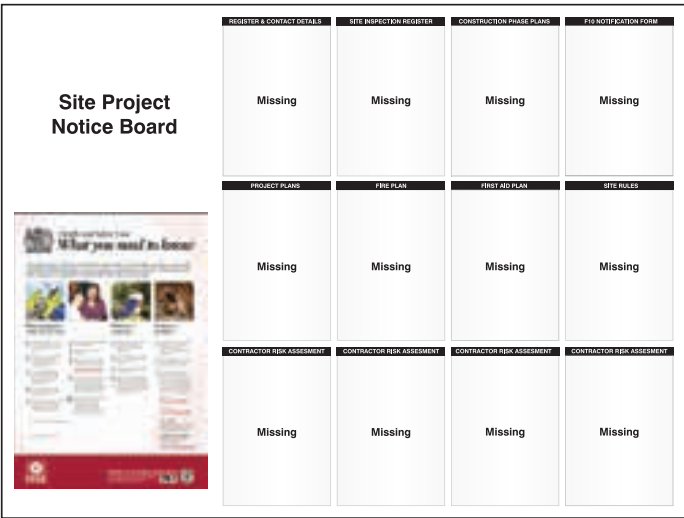

- Open Door Policy
- Company H&S Policy
- Insurance Certificate
- F10 Notification Form
- Site Rules
- Fire Plan
- First Aid Policy
- Fire Action Notice
- Fire Point Location Site Plan
- Emergency Contact List
- Any Other Information

5mm Foam PVC
1430 x 1075mm
5 8177

Document holders for:

- Register & Contact Details
- Company H&S Policy
- H&S Minutes
- Accident Statistics
- Fire Point Location Plan
- Fire Plan
- Site Rules
- Fire Log Book
- Accident Report Book
- Employee Hand Book

5mm Foam PVC
1430 x 1075mm

Standard Specials

Standard Safety Sign Specials

We pride ourself on having the most comprehensive health and safety sign range on the market, but we do appreciate that every workplace is different and will have different signage needs. With this in mind we offer "Standard Specials". Choose any symbol from our catalogue and by adding your own text we can create a sign that gets your exact message across whilst still complying to all UK safety sign legislation. Your company logo can also be added to make your sign completely personalised (prices on application).

Step 1. Decide on the Sign Style

The Health & Safety (Safety Signs & Signals) Regulations require employers to ensure their employees receive training in the meaning of safety signs. Employees should understand the meaning of symbols and colours used on a safety sign.

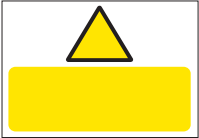

Prohibition

Indicates an action or behaviour that must not be committed.

Mandatory

Indicates a course of action to be followed or equipment to be used.

Warning

Advises of a potential threat or hazard to health within an area.

Step 2. Select the Material

Deciding on your sign message is only the first step. When ordering a sign, thought should also be given to where that sign is going to be displayed. Consider the environment it will be located within – is it internal or external? Is it for display in a warehouse or a prestige hotel? – This list is not exhaustive so if you can't see the product you require please contact our sales team and we will be happy to quote in the material of your choice.

Rigid Plastic

Easily drilled, white, glossy, rigid PVC plastic. Lightweight with high impact strength, suitable for internal and external use.

Self Adhesive Vinyl

High gloss, flexible PVC with self adhesive backing. Suitable for most smooth, dry and clean surfaces. Ideally suited for indoor use.

5mm Foam PVC

Bright white, lightweight and waterproof. Easily drilled for fixing. Ideal for external site safety boards.

Aluminium

0.9mm aluminium with gloss white powder coating. Suitable for both internal and external applications. Excellent weathering and UV resistance provides a long-life product.

Aluminium Composite

3mm, white aluminium skin with a polyethylene core. Lightweight & weather resistant. Ideal for external site safety boards. No scrappage value reduces risk of theft.

Step 3. Select the Size

Prohibition

Composite	59383	59382	59384	59379	59378	59380	59377	59376	59381

Step 4. Supply your Required Text

Supply the text you would like on the sign in no more than 25 words. We will then select the appropriate symbol to go with the message and manufacture the sign to your exact specification.

Step 5. Confirm Orientation

Please advise the preferred orientation for your sign.

Fast Track Standard Special Order

When creating standard specials, we will use our expertise to include the correct ISO 7010 symbol wherever possible or advise of alternative options if required. If you are unsure what can or can't be included on the sign then please get in touch and we'll be happy to offer help and advice.

Why not get creative with Standard Specials and get your staff talking with some temporary, off the cuff, or seasonal signs – catching attention with one sign can help to get your other safety signs noticed and reduce the possibility of 'sign blindness' whereby over time, people see the same sign every day and eventually don't give it the regard or attention it demands.

If you need something a little more specific then see our Custom Made Sign options on page 132-133.

Skip all these steps and email your design into us.

Why not sketch it up on a piece of paper then scan it or take a quick photo and send us the image via email.

Want a generic safety symbol with a custom message? Just tell us the message and we'll do the rest.

Unsure of the correct symbol for your custom message? We'll use our expertise to advise you.

Know exactly the symbol and message you require? Simply let us know and we'll produce to your specifications.

Remember to include the material, size, text, orientation and symbol you wish to use on the sketch. If you want to include a logo remember to attach a high resolution version and send via email.

LOOKING FOR SOMETHING DIFFERENT?
SEE PAGES 132-133 FOR CUSTOM DESIGNS

Custom Specials

Custom Made Signs

If you have never ordered a custom sign before, there are a few things to consider. As you get started, take the following into consideration.

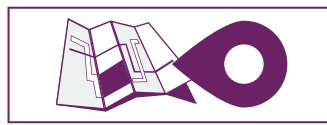

Material

Is your sign for an inside or outside environment? Select the most suitable material for your sign location from the choice below.

Size

No matter what they say, size does matter. Size depends on the viewing distance. Great care should be taken when selecting your size. Additional help can be found on page 2.

Placement

How your sign is mounted will make a difference in what type of finishing it has. If fixed to a post then channelling may be required or maybe you require pre-drilled signs?

Message

Keep your content short, distinct and specific to maximise the likelihood of it being noticed and read.

Font

Consider the size, typeface and colours of your font to maximise visibility and keep it consistent with your corporate style.

Logos

Instil company pride and raise brand awareness by adding your corporate branding to stand out from the crowd.

Colour

Help your message stand out with colours. We advise the use of colours within your companies branding or colours that will compliment your companies branding.

Full Colour Images

Personalise your sign with a photograph of your facility, an employee, or whatever you choose. Ensure your photography is high enough resolution for sign size.

Images & Logos

The images / logos that you send to us must be high resolution. An EPS or Ai file of your company logo would be ideal however we understand that many companies only have JPEG or PDF files. JPEG and PDF files can be suitable if they are high quality. **Taking a logo from the home page of a website will not do.**

If you are finding it difficult to find a high resolution logo you can sometimes find it via **images.google.com** simply drag your low resolution logo file into the search bar and Google will search the internet for images which are similar. If there are any higher resolution logos found on the internet they will load. If all else fails we can reproduce your logo so it prints correctly - additional charges will apply.

There are many websites that provide free stock images such as **pexels.com** or **pixabay.com**. You can utilise these to create truly bespoke signs.

Text & Instructions

Supplying our team with clear precise instructions will ensure you receive your sign exactly the way you'd like. When emailing these instructions please include the following:

- Code, (Size & Material)
- Colour choices
- Message of choice
- Font / Upper or lower case
- Fixings / Drill holes etc
- Image placement
- Logo placement
- Quantity

e.g. 59416 (1200 x 800mm Rigid PVC)
Logo at top centre of sign (sending via mailbigfile.com)
Image below the logo (see attached)
Message below image (see below)

Material Descriptions Other materials available on request.

Rigid Plastic

Easily drilled, white, glossy, rigid PVC plastic. Lightweight and strong, suitable for internal and external use.

Self Adhesive Vinyl

High gloss, flexible PVC with self adhesive backing. Suitable for most smooth, dry and clean surfaces. Ideally suited for indoor use.

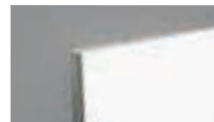

3mm Foam PVC

Bright white, lightweight and waterproof. Easily drilled for fixing. Ideal for external site safety boards.

Aluminium

0.9mm aluminium with white powder coating. Suitable for both internal and external applications. Excellent weathering and UV resistance.

Aluminium Composite

3mm, white aluminium skin with a polyethylene core. Lightweight & weather resistant. Ideal for external applications due to it's zero scrappage value.

Reflective Aluminium

0.9mm aluminium with RA1 engineering grade reflective coating. For use on Road traffic signs. For R2 reflective please call for a quote.

Custom Size Grid Remember to advise the preferred orientation for your sign.

Custom Made Signs

Fast Track Customs

With a team of talented graphic designers and several printing processes (including digital and screen) available, we can provide the ideal solution for any environment. Whether it's a prestigious hotel or an after school club, our custom made signs allow you to get creative and provide a truly unique signage solution. The starting point is your imagination (or someone else's if you've seen something you like) – once you know how you want your sign to look simply provide us with the relevant artwork or send us an image or sketch of your signage idea and we can deliver in a range of materials and sizes.

We can supply you with a visual of the finished artwork for approval before the sign is manufactured – please request at time of ordering. If you cannot find the size or material that you require then call us and, wherever possible, we will be happy to quote for anything outside of normal range.

Why not use one of the following options to Fast Track your custom made sign? Did you know that using one of these options reduces administration and production time plus eliminates the risk of error.

Scan it

Mock up your desired sign, scan it and send us the image. Please don't worry if you're not artistically inclined just remember to include material, colour, text and sizes then we'll turn your sketch into a masterpiece.

Remember you'll still need to send us your images & logos

*We will not be held accountable for quality if an insufficient logo or image has been supplied. Additional charges may apply for the reworking of poor quality files.

Snap it

If you've seen the sign you require simply take a photo of it and send us the picture. We'll then mock up the design based on your instructions and send you a proof to approve.

Printing Processes

We have several printing processes which we use on a regular basis, dependent upon volume, sign environment, graphical content or even just personal taste. Here are some of the more popular options available to you:

Screen Printing

This is the method used for printing the majority of signs within our catalogue. A proven method of printing, ideal for manufacturing medium to high quantity print runs. This manual production method ensures high quality of print and consistency of colour combined with a flawless finish.

Digital Print

A relatively new technique using state of the art wide format digital printers and flatbed machines. Ideal for short production runs or signs that require full colour images to be included in the job. We are able to digitally print directly onto a wide range of materials.

Engraving

The precision routing of computer generated designs provide a tactile, prestige finish to a sign message. The use of layered substrate materials allows the top surface to be cut away to uncover the contrasting colour of the lower layer. Ideal for door signs and valve tags.

Vinyl Graphics

Computer cut vinyl graphics can be applied to a substrate or used on windows. Pre-spaced, ready to apply vinyl lettering or graphics can be applied to almost any flat, dry and clean surface.
