## MOBILE TANK HANDLES

Manual handling is now an important consideration in all workplaces. We have addressed this with the new Supertuff moulded handle. Designed to suit a range of mobile tanks, it offers a number of benefits to the end-user.

- Improved operating posture, reduces the need to bend or stoop
- Greater and easier manoeuvrability
- Heavy duty and durable design, moulded from tough food grade polyethylene
- Fixings moulded into the handle reduce the number of loose fixings
- Available in grey as standard, other colours available on request.
