

Static Safe & Sterile TechnoChairs

"Wipe-clean surfaces
avoid contamination"

The Static Safe and Sterile range is designed for comfort while meeting the rigours and technical requirements of a sterile, static sensitive environment.

- ESD and sterile vinyl upholstery contains a continuous carbon filament that will not wear
- All chairs feature a PCB (permanent contact back)
- Independent seat and back mechanisms optional
- Brake unloaded castors available on TC306 and TC310
- Brake loaded castors available on all static safe and sterile models

Please see page 104 for mechanism descriptions ▶▶▶
