Raven® Price Computing Retail Scales

new

Only available from UK, Germany, and South Africa offices

Simple to use, Raven price computing scales offer 40 PLU memories that can be accessed directly from the keypad for quick recall of products. The backlit display clearly show both the operator and customer the weight, unit price and total price. A built in battery makes the Raven ideal for market traders and applications needing complete portability.

Features

- Backlit LCD shows weight, unit price and total price, to provide the key information simultaneously
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Heavy-duty rubber feet ensure stability of unit
- Overload protection helps prevent damage to internal components
- Solid ABS housing is durable for industrial uses
- Rechargeable battery included for operation almost anywhere
- Auto power-off to save energy
- Built-in memory for storing 40 products (PLU's)

Rear View

Model	RAV 3D	RAV 6D	RAV 15D	RAV 30D

WBZ Washdown Retail Scales

A smart choice for delis, restaurants, coffee shops and bakeries that sell food based on weight, the WBZ washdown retail scale simplifies price computing. Weight, price per unit and total cost are displayed for both operator and customer on WBZ's backlit dual LCD. With a large grade 304 stainless steel pan and streamlined design, the WBZ is easy to clean and fits neatly on crowded counters or smaller prep tables. The WBZ is approved for selling by weight and carries an IP66 rating, so it is protected against water and flour dust.

Features
- Backlit LCD shows weight, unit price and total price, to provide the key information simultaneously
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Large, grade 304 stainless steel pan allows easy cleaning
- Level indicator and adjustable feet ensure proper balance setup for optimum weighing results
- IP66-rated for protection against water and dust
- Preset tare function speeds the process of repetitive weighing
- Price displayed in choice of available currencies
- Auto-clear function enables the last item to be reset each time the scale returns to zero

Applications
- Weighing
- Price computing

AZextra Price-Computing Retail Scales

The AZextra retail scale offers weighing and price computing functions needed for meat counters, shops and markets. The AZextra comes with internal memory capable of storing up to 103 product look-ups. A selectable auto-clear function enables the last item to be reset each time the scale returns to zero. Time, date, weight, unit price and total cost transmit easily to printers via RS-232 interface. The AZ extra is approved for use in trade.

Features

- Backlit LCD shows weight, unit price and total price, to provide the key information simultaneously
- Pillar display standard on P versions
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Large, grade 304 stainless steel pan allows easy cleaning
- Product Look Up (PLU) memory locations store a range of items for recall as needed
- Price displayed in choice of available currencies
- Rechargeable battery included for operation almost anywhere
- Switchable between price per kg and price per 100g
- Auto-clear function enables the last item to be reset each time the scale returns to zero
- Optional RS-232 interface is available to provide speedy connection to computers and printers

Applications

- Weighing
- Price computing

Astro® Compact Scales

Astro portioning scales provide accurate measurements for the food service industry. The Astro's durable stainless steel construction can easily be wiped down. A large LCD displays results in green during normal weighing. If the scale is overloaded or is not set on a level surface, readings will be displayed in red, clearly notifying the user that they are not receiving precise results.

Features

- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Large, grade 304 stainless steel pan allows easy cleaning
- Overload protection helps prevent damage to internal components
- Rugged stainless steel housing for ultimate durability
- Operates with AC adapter (included) or batteries (not included)

Applications

- Weighing

LBK Weighing Scales

With easy operation and a sleek, compact profile, LBK is ideal for food service and production areas. Food preparation tasks are simplified with the LBK, including ingredient measurement, portioning, sample weighing, dietary control, and food processing activities. The LBK features a large, easy-to-clean stainless steel pan to accommodate different bowl sizes, making it an excellent choice for delicatessens, restaurants, cafes and pizza parlours. The sealed keypad and ABS plastic housing allow speedy clean-up of spills. LBK scales are well-suited for repetitive tasks, as the most frequently used keys are colour-coded for fast recognition.

Features
- Vivid, backlit LCD easily visible in any lighting conditions
- Large, grade 304 stainless steel pan allows easy cleaning
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Level indicator and adjustable feet ensure proper balance setup for optimum weighing results
- Splash-proof housing, keypad and display mean easy cleaning
- Lightweight design simplifies transport and portability
- Rechargeable battery included for operation almost anywhere

Applications
- Weighing
- Parts counting
- Percentage weighing

WBW Washdown Scales

The WBW washdown scale is ideal for weighing bulk recipe ingredients or measuring individual servings in restaurants, bakeries, cafes and kitchens. The scale is easily wiped down in compliance with sanitation requirements, and its IP66 rating means the WBW is sealed to protect against flour dust or moisture. A capacity tracker monitors weight when making batches or adding ingredients. With a compact design, the WBW fits comfortably on a bench or countertop.

Features
- Vivid, backlit LCD easily visible in any lighting conditions
- Capacity tracker built into display for easily monitoring possible overloads
- Optional rear display doubles equipment placement possibilities for easy viewing
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Heavy-duty rubber feet ensure stability of unit
- IP66-rated for protection against water and dust
- Checkweighing LEDs light to clearly show under, over and acceptable limits
- Large, grade 304 stainless steel pan allows easy cleaning
- Sealed keypad protects against dirt and spills

Applications
- Weighing
- Checkweighing

CBK Bench Checkweighing Scales

The sleek design and smooth, easy-to-clean contours of the versatile CBK bench checkweighing scale bring unmatched value to food service operations. Features and functions such as percentage weighing, checkweighing, and memory accumulation facilitate ingredient measurement and the weighing of food in take-out containers. A capacity tracker is built directly into the display, making it simple to monitor portions. The CBK offers a vivid, backlit LCD that is easily visible in any lighting conditions, so it is well-suited for kitchens or prep settings.

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Capacity tracker built into display for easily monitoring possible overloads
- Checkweighing LEDs light to clearly show under, over and acceptable limits
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Large, grade 304 stainless steel pan allows easy cleaning
- Rugged construction stands up to industrial use
- Optional RS-232 interface is available to provide speedy connection to computers and printers
- Optional USB interface simplifies data communication
- Rechargeable battery included for operation almost anywhere
- Quick and easy configuration using the keypad
- Memory accumulation totals results
- Checkweighing with audible alarm

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Accumulation of weight

Warrior® Washdown Scales

WSK WBK WFK

Rugged durability makes the Warrior a winner for measuring large quantities in demanding food industry environments. With an IP66 rating, the Warrior's internal components are protected against flour dust and moisture, while the grade 304 stainless steel base cleans easily during batching tasks. Dynamic weighing capability allows the Warrior to accurately measure liquids, and easy-to-read, coloured LED indicators facilitate repetitive checkweighing of samples

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Capacity tracker built into display for easily monitoring possible overloads
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Large, grade 304 stainless steel pan allows easy cleaning
- Rugged stainless steel construction for ultimate durability
- Checkweighing LEDs light to clearly show under, over and acceptable limits
- Rechargeable battery included for operation almost anywhere
- IP66-rated for protection against water and dust

CPW*plus* Weighing Scales

Top to Bottom: CPW*plus*, CPW*plus* M, CPW*plus* L

With its many platform and power options, the CPW*plus* bench and floor scale provides exceptional value and durability to meet the demands of food processing applications. CPW*plus* is simple to operate and offers a stainless steel platform that is easy to clean after weighing food ingredients. The hold function facilitates dynamic weighing of liquids. The CPW*plus* indicator can be set up and positioned anywhere for easy viewing. Ideal for measuring ingredients in restaurants, weighing dough in pizza parlors, or mixing batches in food factories.

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Remote display can be placed anywhere near the base unit for convenient viewing
- Large, grade 304 stainless steel pan allows easy cleaning
- Optional RS-232 interface is available to provide speedy connection to computers and printers
- Auto power-off to save energy
- Hold function freezes the displayed weight, allowing time to lapse without losing the result
- Scratch-resistant aluminum housing protects internal components
- Wall-mount bracket for placing indicator on vertical surface
- Simple operation allows quick startup and use with little or no training

GBK Bench Checkweighing Scales

The GBK bench checkweighing scale offers durability and value for batching in commercial food applications. Functions on the GBK include dynamic weighing to measure liquid ingredients, checkweighing to monitor the final product and automatic accumulation to provide totals for weight readings. The GBK features a sturdy, grade 304 stainless steel pan that removes easily for frequent cleaning during batching tasks, while a sealed keypad protects against accidental spills. The adjustable indicator rotates and angles to provide the ideal viewing position.

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Checkweighing LEDs light to clearly show under, over and acceptable limits
- Capacity tracker built into display for easily monitoring possible overloads
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Large, grade 304 stainless steel pan allows easy cleaning
- Rugged construction stands up to industrial use

- Optional RS-232 interface is available to provide speedy connection to computers and printers
- Rechargeable battery included for operation almost anywhere
- Checkweighing with audible alarm
- Memory accumulation totals results
- Quick and easy configuration using the keypad

GFK Floor Checkweighing Scales

With its high capacities and large, grade 304 stainless steel platform, the GFK floor checkweighing scale is ideal for bigger batching applications and high-volume food production tasks. Features such as capacity tracker and automatic memory accumulation help tackle larger food-weighing operations such as catering and special events. Checkweighing is simplified with the GFK, as coloured LEDs show if samples are within a specified range. The indicator can be used with or without the pillar, offering flexibility when reading results.The GFK-M is approved for use in trade.

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Capacity tracker built into display for easily monitoring possible overloads
- Checkweighing LEDs light to clearly show under, over and acceptable limits
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Large, grade 304 stainless steel pan allows easy cleaning
- Rugged construction stands up to industrial use
- Solid ABS housing is durable for industrial uses
- Splash-proof housing, keypad and display mean easy cleaning
- Optional RS-232 interface is available to provide speedy connection to computers and printers
- Rechargeable battery included for operation almost anywhere
- Checkweighing with audible alarm

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing

CCEU & CCSA Coin Counting Scales

CCEU only available from UK, and Germany offices
CCSA only available from the South Africa office

The CCEU and CCSA coin and token counting scales are designed to handle large numbers of coins in retail applications, providing accurate counts for nine different coins and three token values. It includes a rechargeable battery, so it operates smoothly when power is unavailable. A memory accumulation function keeps track of amount totals, displaying the figures on a vivid, backlit LCD that is readily visible in any lighting conditions. The durable stainless steel platform is easy to clean, while its large size accommodates a variety of container sizes. Colour-coded keys speeds up operation. Security is of the utmost importance when counting currency, because of this, these models provides password control to eliminate unauthorised use of the scale. Speedy communication is achieved so tabulations can be printed or saved.

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Level indicator and adjustable feet ensure proper balance setup for optimum weighing results
- Rechargeable battery included for operation almost anywhere
- Security password control
- Memory accumulation totals coin values
- Accommodates nine different coin unitsand two different token sizes
- CCEU counts Euros or sterling coins, but can be configured for other currencies as well
- CCSA counts South African Rands or sterling coins, but can be configured for other currencies as well

Applications

- Coin counting
- Weighing

Model	CCEU 20	CCSA 20
Capacity	20kg	20kg
Readability	1g	1g
Tare Range	Full range	
Pan Size	225x275mm	
Weighing Units	kg, PCS	
Calibration	External calibration	
Display	Backlit LCD with 20mm-high digits	
Power Supply	Mains power cord / Internal rechargeable battery	
Operating Temperature	-10° to 40°C	
Overall Dim.	315x355x110mm (wxdxh)	

Accessories

Item number	Description
302000001	Hard carrying case with lock
302205006	In-use cover
700200057	In-use cover (pack of 5)
700200058	In-use cover (pack of 10)
1120011156	ATP thermal printer
3126011263	ATP thermal printer paper
3126011281	ATP thermal printer paper (pack of 10)

Accessories

Item number	Description
3074010266	RS-232 cable (null-modem)
3074010507	RS-232 to USB adapter (must order corresponding RS-232 cable)
700660290	Calibration certificate

Dune® Portable Compact Balances

The Dune offers a fast, convenient way to measure recipe ingredients or to perform portion control tasks in food service operations. The Dune is powered by battery or an AC adapter, which is included with the balance. This means the Dune can be transported between kitchens and serving areas, or used in a production line where electricity is unavailable. The large plastic pan removes easily for cleaning and readily accommodates food items or small food containers, which can be tared out with the touch of a button. The Dune's simplicity and portability make it ideal for most culinary settings.

Features
- High-contrast display is easily visible from a distance
- Colour-coded keys facilitate quick recognition of the most frequently used buttons
- Solid, one-piece construction is lightweight and easy to clean
- Auto power-off to save energy
- Low-battery indicator alerts users when batteries need replacement
- Operates with AC adapter (included) or batteries (not included)
- External calibration allows for verification and adjustment with weights

Applications
- Weighing

Model	DCT 201	DCT 2000	DCT 5000
Capacity	200g	2000g	5000g
